

## A concrete help: Now!

The political crisis in Myanmar is exacerbating poverty conditions of the whole population and thousands of families today are not only afraid of their security but also run the risk of having nothing to eat.

We can concretely support families that are facing difficulties through **distribution of food, medicines and other basic needs.**

New Humanity International Foundation is already in touch with several families in rural areas and cities to guarantee the distribution of basic needs.

### SUPPORT THE PROJECT
